Thank you, Anna.

All, I made a comment on spreadsheet, but in case that gets missed I recommend entering the ³month published² as a number (1-12) so we can sort the rows chronologically for the finished report. If you enter the month as text or as a combination of text and numbers, we'll only be able to sort alphabetically, which is less useful in this case.

We can always convert the numbers back to text with formulas once it's sorted.

Best,
Mike

Subject: Publication Review

All,

Below is the link to enter the concerns we find in yearbooks and newspapers. Anyone with this link and a google account can edit the spreadsheet. At this point, we are only tracking the concerning issues we find. We are not tracking which publications we have reviewed, so only update this sheet if you find an issue.

Let me know if any changes are needed.

Best,
Mike
